

TWENDE HOCKEY ACTIVITY REPORT 2023

1.0 ACTIVITIES SUMMARY:

1.1 Our hockey activities are not only run in schools but also within a cluster of school we have community centers. Community center refers to the children not in our network of schools. These mainly target players /youths that have completed the primary education but have transitioned to secondary schools that don't have hockey, children surrounding the centers and the under 21s who have completed secondary school but have not yet transitioned to clubs. Other than the schools, each coach also has a community program on the side. These are weekend sessions that also include their players from the schools. In addition to our other centers, (UKonga Km which has a full-sized pitch and JMK Youth Park which has a mini sized artificial pitch) we opened up a new centre this year, Amani. This has been made a center by virtue of the number of payers/schools that can access it during the weekends. Kigamboni which was originally just a centre now has two schools The two schools, Tungi Primary and Tungi secondary have a common pitch which will now be the new center of Kigamboni starting January 2024, an upgrade from the previous center which was in the shared space with a market.

1.2 The coach mentorship program is also back and this year we had three trainee coaches: Mbela Shadidi (one of the original Twende players) Mustapha Shaweji and Yohana Mawimbi (two of our young players from Lindi and Dar es Salaam region respectively. Both are our beneficiaries from the 2017 Olympic Solidary Grant expansion project. Mustafa relocated to Dar from Lindi this year for studies and partly volunteers at the centers, working with various coaches.

1.3 As part of coach player program, in December, in collaboration with Tanzania Hockey Association, The level 2 certified coaching course was conducted, by our very own Twende instructors. A total of 18 coaches, including our own 5 coaches, successfully completed this level. Alongside this, the basic level coaching course was also conducted for 18 teachers from Arusha region. The teachers will be working alongside experienced coaches in the targeted Arusha schools.
